Dear Harold,

Enclosed please find 2 enclosures of interest.

Please let me take this opportunity to wish you both belated Happy Birthdays. I did not forget your birthdays this past April. I've been unbelievably busy these past 3 months working at my job, tending to my own painting business, plus working on my own home.

I hope you are both feeling as comfortable as is possible for you both.

Harold please let me know what you've been up to lately with your writing. Also wondering if your still able to do much walking or going to Hannahs to eat. Do you still receive visitors? Would love to be able to come see you again maybe sometime this year.

Regarding the clippings I've sent - Please comment or give me your thoughts on the LBJ clipping regarding his conversations with Gov. Wallace.

Regarding the MLK case these are my questions.

Do you know of any efforts being taken

To exonerate Ray even though he is now dead - Does Pepper continue to have anything to do with the case or not? Do you know what Jerry Ray is doing these days?

I enclose the obituary of Lloyd Jowers - You've told me in the past that you did not believe his story - Could you elaborate why you say this. In the obit his lawyer Garrison still stands by Jowers story - Why? This puzzles me because there is no more money to be made on this case I would think - Please let me know what you think regarding this -

Some general questions

Do you know what Livingstone is doing these days? Same for David Lifton..

Is there anything new with the JFK case or any new books coming out?

What is Dave Wrone + Cyril Wecht doing these days?

Sorry for all the questions - Stay as well as is possible - You are both in my thoughts and prayers all the time.
